Cantrina is a tiny and ancient rural hamlet, and our winery is a small family-run estate. We cultivate about 8 hectares of vineyards under organic management. We like to approach our work in the vineyard and in the cellar as a 'free exercise of style', believing that enhancing and expressing the character of each wine creates the unique and recognizable signature of every producer.

Passion, tradition and innovation are the values that embody more than a century of winemaking history on Lake Garda, shaping both our family life and our daily work. We devote meticulous attention to every detail, starting with the care of our vineyards. Every action we take follows the rhythms of nature, and every new decision is carefully evaluated at each step to ensure nothing is ever forced. What we continue to do today is simple: we pour this passion into a production that is the synthesis of experience, heritage and innovation.

Our company has been active in the world of wine and olive oil for several generations, always as a family-run business. Today, the estate is led by cousins Fabio and Roberto, who have brought a wave of youth and enthusiasm to production, while still guided by their fathers. From the 12 hectares of vineyards that we personally cultivate between Valtènesi and Lugana, we produce the classic wines of Lake Garda. Meanwhile, our 7 hectares of olive groves give life to two exceptional oils—a blend and a monovarietal—that best express the full potential of Garda olive growing.

The Pasini San Giovanni winery is located in Raffa di Puegnago del Garda. Since 2009, the energy needed to power it has been supplied by the sun, thanks to a photovoltaic system installed on the winery's roof. The estate's vineyards are located in Valtènesi, the production area on the western shore of Lake Garda facing the sunrise, in Raffa di Puegnago and Picedo di Polpenazze, and in Lugana, the southern production area of the lake, in San Benedetto di Lugana and Desenzano—all managed according to organic farming principles.
