SUSTAINABILITY CERTIFICATION -

The idea was born on a cool spring evening, sipping a glass of San Martino together, surrounded by the scents and colors of the Garda countryside stretching out at the foot of the famous tower. From that day on, our passion steadily took shape, until June 2022, when our company, Dobellone, was founded. Its name recalls an old card game, once very popular in the Desenzano del Garda area. Our production is based on limited quantities and is essentially focused on product quality. Spontaneous fermentations and indigenous yeasts

SAN MARTINO DELLA BATTAGLIA DOC "AIGUANE"

VEGAN

It all began in the 1930s, with the cultivation of a few vineyards dedicated to small-scale production, intended mainly for personal use. Generations followed one another, and the art of winemaking was passed down from father to son. Production and quality grew to such an extent that the winery gradually developed a commercial identity. Today, Fausto Bulgarini and his wife Virginia Bulgarini successfully carry forward the family passion through research, tradition, and innovation, creating a winery that is appreciated and internationally recognized.
